PRESS STATEMENT

Date.:06/06/2020.

How far **Myanmar** government's sincerity and liability to follow the **ICJ** court' s order?

1. It is diaphanous to all that Myanmar government ever attempts to find out their convenience with others' inconvenience so that it plays vital mystical characters in its national and international politics.

The Global Rohingya Forum (GRF)

is an Umbrella group for Rohingya Organizations from around the world.

2. The Rohingya issue is very aged issue which has anciently been suffering from all kind of discrimination, persecution, rebukes and disgrace.

3. Myanmar government has strategically been practicing their heinous, shocking deeds to mature and ripen the scheme of Rohingya ethnic cleansing.

4. The Rohingya community has been being deprived from all human rights of education, health, religion, residence and free moving. They have been leading a pathetic, pitiful and miserable life since 1942 but before this period, they had a golden glorious history.

5. Many Madrasah students have to flee their motherland because of their study in Madrasah. The Myanmar extremist government especially targeted Islam and Muslim, so they particularly created obstacles in Islamic study. Most Rohingya minority have experienced much heinous vile suppression, oppression by Myanmar extremists armed force and local Buddhist. If I want to describe that barbaric and wild and fierce suppression, oppression my word will be ended but the description will not be ended. Every scheme of Myanmar government to vanish Rohingya minority is very mysterious and intellective no one can understand them without deep observation.

6. The Rohingya minority has silently been suffering from that inhuman persecution and torment for decades. Their gloomy and melancholy life has no light of salvation and exemption from that horrible and terrible situation created by Myanmar Army.

7. Whenever any benevolent and altruistic authority talks about that Rohingya minority, they knit dream net of hope to get salvation from that bitter situation. But, at soon they have to be collapsed on their knitted hope and desire. because that benevolent authority does not get collaboration of any other powerful one beside him to make the issue fruitful so that it has to remain in darkness.

8. The cases filed by the Gambia government in international Court of Justice (ICJ) against Rohingya Genocide by Myanmar extremist armed force and local Buddhist has great importance and significance to get salvation with all human rights. The Rohingya community too think with supreme hope that this case must do any better thing to go back to their motherland with all rights.

But, what does Gambia government alone do? if any other potent authority has not moved with it. Myanmar government is moving against that cases filed in ICJ against Rohingya Genocide with subtle strategies and adopting techniques from its neighbors' countries. The Rohingya community always is grateful to Gambia government to stand beside them in international court of justice. They also hope that they will get all powerful worldwide organizations like OIC, European union etc. beside them in any critical situation.

9. Myanmar government is playing a deep mystical role in ICJ Court of justice against the cases filed in ICJ court to innocently rescue them from that cases against Rohingya Genocide, taking help and suggestion from its benevolent countries like China, India, Japan etc. but without Gambia, there is no one beside the God damned Rohingya community in ICJ.

10 If the worldwide strong organizations, countries don't stand beside Gambia in ICJ Court, the cases filed in ICJ against Genocide will remain unsolved.

11. In this surrounded critical circumstance of cases filed in ICJ Court of justice, The Global Rohingya Forum (GRF) urge the OIC and other Islamic NGOs to stand beside Gambia in ICJ.

12. We also urge international authorities to force Myanmar for safe and secure repatriation.

13. Moreover, we equally feel that The Rohingya refugees in overcrowded Bangladesh refugee camp are surviving a very pathetic and miserable life. without strong voice against Myanmar government's atrocity and brutality, the Rohingya issue will not be ended. so, GRF would like to request all human rights organizations, NGOs and powerful countries to strengthen their mighty hand to stop all kind of Burmese's persecution and atrocities.

Thanks

Global Rohingya Forum (GRF)
